DETAILED ACTION

In response to the amendment filed 3/18/2005 all the amendments to the claims have been entered and the action follows:

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-2, 5-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bailey et al (US 4924087) in view of Driscoll, Jr. et al (US 6356296).

With respect to the claims 1-2, 5-10 the rejections are respectfully maintained and incorporated by references as set forth in the prior office action (date 12/27/2004).

3. Claims 3 and 4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bailey in view of Driscoll, Jr. et al (US 6356296) and in further view of Norton (US 4139306).

With respect to the claims 3-4 the rejections are respectfully maintained and incorporated by references as set forth in the prior office action (date 12/27/2005).

Allowable Subject Matter

4. Claims 11-15, 17-18 and 20 are allowed.
5. Claim 19 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

6. Applicant's arguments filed 3/18/2005 have been fully considered but they are not persuasive. Applicant argues that the reference Driscoll fails to disclose entire circumferential surface, see page 6 paragraph 2. examiner disagrees and would like to point out the figure 5 the two cameras 515 and 565 are considered as upper hemisphere and the lower hemisphere cameras, also col. 4, lines 3-13 states that the two cameras take upper and lower hemisphere images that are combined to make one image, as claimed.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
